SUMMARY

Results-driven data and investments professional with 10+ years working in finance and investments and 4+ years of experience using SQL, Python, and cloud data warehouses. I've built data pipelines, automated workflows, and delivered actionable insights in my own companies and at multi-million dollar investment companies at scale.

WORK EXPERIENCE

Managing Partner

Inversion Capital | Las Vegas, NV

Jun 2022 – Present

- Founded investment platform targeting single-family short-term investment properties
- Acquired and managed six homes generating \$100K+ annual income while achieving strong occupancy and profit growth
- Build an automated end-to-end SQL + Python pipeline for forecasting and data analysis that was used in decision making (see projects section)

Director of Investments

Virtus Commercial | Las Vegas, NV

Oct 2023 – June 2024

- Led investment strategy for neighborhood retail and mixed-use assets
- Managed acquisition, underwriting, due diligence, and financing for an \$8.5M retail center, achieving 6–8% cash-on-cash returns and substantial investor tax savings via cost-segregation studies
- Established firm-wide policies and underwriting templates for standardizing acquisitions and investor reporting

Director of Acquisitions

Kalonymus | Los Angeles, CA

Nov 2021 – May 2022

- Designed data models and dashboards to evaluate datasets for strategic decisions leading to over \$50MM deployed in equity investment capital
- Translated data analysis into sound investments and communicated the reasoning behind each decision to large stakeholders

Acquisitions Associate

Boulevard Partners | Los Angeles, CA

Jan 2020 – Oct 2021

- Underwrote acquisition and development opportunities for deals up to \$100M+ total capitalization
- Partnered with key investors and lenders to translate data into operational strategies for a 69-unit Arts District development
- Streamlined due diligence workflows using Python to handle large data sets

Senior Financial Analyst

Brookfield Properties | San Diego, CA

Oct 2018 – Dec 2019

- Developed dynamic dashboards for investment feasibility adopted enterprise wide
- Contributed to Nashville's 5th + Broadway (\$700M) and San Francisco's Pier 70 (\$1B) projects, driving projected 20%+ IRRs

Senior Associate

Brandes Investment Partners | San Diego, CA

Oct 2014 – Sept 2018

- Performed advanced data analysis and modeling for global tech and infrastructure companies such as Microsoft and Oracle that led to above-market returns over a four-year cycle

Associate

PricewaterhouseCoopers | San Francisco, CA

Aug 2011 – Sept 2014

- Led and completed the audit of Rancon Realty Fund while coming in under budget and saving \$10K+

PROJECTS

Short-Term Rental Investment Analysis | Python, SQL, APIs

- Built end-to-end data pipeline analyzing 17,600+ Airbnb listings, 6.4M booking records, and 3,000 MLS home sales to identify optimal real estate investment opportunities in Las Vegas
- Developed ROI model combining revenue projections (ADR × occupancy) with purchase costs, identifying 2-bedroom properties as highest ROI (18%) and key amenities that increase revenue by up to 93%
- Scraped hotel pricing data via Booking.com API across 8 date ranges to build competitive analysis showing Airbnb offers 10-30% savings vs comparable hotels
- Created SQLite database and visualizations in Python (pandas, matplotlib) to deliver actionable investment recommendations segmented by bedroom count, location, and amenities

PROJECT LINKS
